

Program Description

EARLY CHILDHOOD PROGRAM - FALL SCHEDULE 2017

September 18th - November 30th

Playgroups are parent and child stimulation workshops focusing on child development through interactive play.

Child Stimulation Program helps young children develop physical, language, cognitive and social skills through various age appropriate educational activities.

Mother Goose is an animated story telling session by professional storytellers from the Montreal Children's Library.

Parents & Infants Stimulation Workshops offer an opportunity for parents of newborn babies to learn and exchange ideas on parenting and child development.

Parents' Discussion and Cooking Workshops provide a chance to get together and prepare nutritious meals. We feel that cooking together helps people to open up to each other. Parents are welcome to share and discuss on the common challenges of parenting.

Lunch & Lecture is a series of lunches for Tyndale St-Georges' Early Childhood Community. Guest lecturers will deliver presentations on a variety of topics related to Early Childhood (i.e. speech development, health, home safety, dental care).

Newsletter includes parenting advice and tips, play suggestions, safety tips, program updates and more!
